

# Geelong Individual Award History - General Awards

## Note:

The criteria for determining awards are outlined in the Geelong Athletics By Laws and may be subject to change over time

Consideration is given to performances in local competition, AVSL Competition, Victorian Country, Victorian State, Australian Championships or World Athletics International competition.

Awards are not based on a single event but results over a season and athletes must have participated in at least half the rounds for the season to be considered for eligibility. However, if high standards are reached in a World Athletics International competition the performance will be treated on its merits. The relative merits of younger athletes is considered.

Awards will not necessarily be restricted to one athlete where warranted.

If no performances are of a suitable standard, no award will be made.

There must be a minimum of three (3) athletes in the award category for an award to be considered. If there are insufficient athletes then no award shall be given.
